Casinos	Hotels
Educational	Industrial
Energy	Manufacturing
Entertainment	Military
Ethanol/Bio-Diesel	Offices
Freezer	Remodel
Government/High Security	Retail
Healthcare	Single Family Residential
High Rise	Solar
Historic	Warehouse

## OUR CORE VALUES

### Dedication to safety

Our dedication to performing work in a safe and reliable manner has resulted in a superior safety rating.

### Honesty and respect

We conduct our business honestly and treat our customers and each other with respect.

### Superior customer service

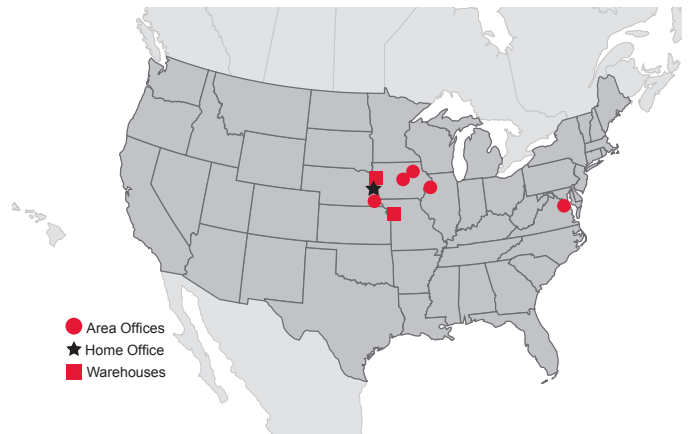

We are leaders in cost control and strive to give our customers the highest quality in work.

### Excellence in performance

We focus on scheduling and coordination to get the job done right the first time. Strict adherence to codes and regulations is essential in each project.

## LOCATION

Our home office is headquartered in Omaha, Nebraska. We have area offices in Lincoln, Nebraska; Des Moines, Iowa; Davenport, Iowa; Cedar Rapids, Iowa and Arlington, Virginia. We have warehouse locations in Sioux City, Iowa and St. Joseph, Missouri. This allows us to be versatile and accommodate our customers' needs.

## CAPABILITIES

Continental has the expertise and resources to handle every aspect of fire sprinkler protection for any size project. Our professionals are among the most qualified and capable in the industry, allowing us to offer a full spectrum of services to meet our customers' needs.

- **Estimating**

Our estimating staff prepares preliminary drawings, calculations and quantity take-offs based on performance specifications and codes ensuring your fire sprinkler system is installed correctly.

- **Design and Project Management**

Our designers and project managers analyze codes and standards at a very detailed level to create the final design and construction drawings for review by the Authorities Having Jurisdiction (AHJ).

- **Installation**

From the smallest alteration to higher complex structures, every installation receives the same quality and meticulous workmanship.

- **Maintenance, Service and Inspection**

We provide sprinkler inspections based upon the guidelines of the National Fire Protection Association (NFPA), which includes performing fire pump and backflow preventer tests.

- **Alarm and Detection**

Continental also provides our customers with alarm and detection needs giving them a complete fire protection package.

## FINANCIAL STABILITY

Our virtually unlimited bonding capacity allows us to take on projects of all sizes, from small retail buildings to intricate high rises.

## SAFETY

A safe and reliable work environment is very important and is part of our core values. We place a strong emphasis on the training of our employees and working safely every day. We boast a superior safety rating of 0.54. 90% of our project foremen are OSHA 30 Hour certified and 65% of our fitters are OSHA 10 Hour certified.

## QUALITY PEOPLE

Our in-house designers have four-year construction management or engineering degrees, giving our customers the peace of mind that their job will be carried out professionally and to the highest standard. All our designers are trained in AutoCAD, MEPCAD, SprinkCAD and are NICET Certified. In addition, our fitters are members of the Road Sprinkler Fitters Union Local 669.
